# How We Work

## Organize, Develop, Implement and Grow Your Business

### 1 PRELIMINARY WORK

Your dedicated marketing team learns about your business, sales goals and anticipated obstacles.

### 2 STRATEGIC PLANNING

Your team at Awesome Dynamic will discuss your goals, prioritize tasks, develop a working timeline to meet those goals, and then share a detailed plan with your team so you know what to expect every step of the way.

### 3 WORK PROCEEDS

Your team begins working on the tasks that are outlined in your strategic plan, from conducting keyword research, developing graphics, and writing copy to accelerate your sales.

### 4 MANAGEMENT

Your team will work diligently to maintain and promote your product listings while providing you with frequent updates.

## A Little About Our Pricing Structure

Our services are customized to each client's needs. We painstakingly review each new account to create a detailed outline of recommended steps, based on the scope of the project and the level of service required. That being said, there are two options for pricing that you can choose from, monthly or hourly. We'll be happy to review these in more detail during your consultation.

### Monthly Support Services

Monthly support offers the biggest benefit for our clients. This ongoing arrangement gives clients the comfort of knowing what their monthly budget will be for our work and steadily allows our team to strategically work through optimizing product listings and managing your account(s).

### Hourly Support Services

Our hourly support is offered for those who only need a few services and are not likely to need ongoing support. A block of hours is purchased and we apply the hours as you go, whether on a few service solutions here or there, or on one entire project.
